

MEMO

September 21, 2021

From: Keren Tang

To: Members of ATU Local 569

If I am elected Edmonton City Councillor in Ward Karhiio on October 18, 2021, I pledge to the members of the Amalgamated Transit Union that I will act in your interests on the following issues:

- I will work to reverse the move to contract out the cleaning of buses in particular and to ensure that contracting out work in general is a last resort in order to stop this trend
- I will advocate that new service hours budgeted for ETS and intended to improve and expand the service will be distributed in-house and not to contractors.
- I will remain committed to the principle of fair collective bargaining, a fundamental Charter right that underpins a thriving relationship between employers and employees.
- I will act to secure ATU members' interests in discussions about the Regionalization of Transit.
- I will encourage Council to reconsider the harmful effects of the Reimagine initiative and work to protect high quality public sector jobs.

I make this pledge because of its mutual benefits to Edmontonians, to the members of ATU Local 569, and to the entire City of Edmonton.
